

CYBER ACADEMY

Accelerate your team's expertise With CyberSOC Africa's cyber academy

Africa's premium cyber security academy offers uncompromising education experience. An engaging curriculum that encompasses everything a security expert should know combined with real-world hands-on experience.

Hiring top-level cyber security analysts is a global challenge, hiring top-level cyber security analysts in Africa is even a bigger one. CyberSOC Africa operates one of the top cyber security academies in the continent. We challenge top computer science graduates and IT/cyber security professionals to join our program. CyberSOC Africa's unmatched local analyst training is an intensive full-time, three month program that includes theory, simulations and hands-on training in a wide range of cyber labs, working with real malicious environments. Graduates are qualified to start their cyber security career, specializing in areas such as ethical hacking, incident response, forensics, SOC tier 1 and 2 analyst, and more.
